

T-10 Acoustic black line

200W/RMS 1x10"

The bass guitar and double bass amplifier with MLO system and DBS

The **TAURUS T-10 Acoustic** has been designed to provide sound for bass guitars and double basses. The T-10 is equipped with 200W power amplifier and 10" loudspeaker. The TAURUS is adopted to work with passive, active and piezo pick-ups which are very often used in acoustic double basses. Specially designed EQ and high efficiency cabinet result in amplifier sounding clean and fully saturated in spite of its small dimensions. The player has an impression of playing on a much bigger and powerful bass system. The T-10 is the best choice for the bass players who looking for very small and big power rating bass amp.
